

# CAYMAN ISLANDS

Located in the Western Caribbean, 460 miles south of Miami, Florida, the Cayman Islands (“Cayman”) have developed into a world-renowned international financial centre.

Commercially successful, Cayman has strived to maintain its reputation and integrity; notably it is one of the first Caribbean territories to implement and adhere to international regulatory standards. Cayman is an attractive jurisdiction both to private and institutional clients, not only because of its depth of financial service product offerings such as banking, trusts and alternative funds, but also owing to its economic and political stability.

Cayman’s regulatory regime surpasses many of the world’s top international financial centres in the area of anti-money laundering. There is a requirement for all sectors to obtain and maintain an operational and regulatory licence from the Cayman Islands Monetary Authority. Notwithstanding its regulatory regime, Cayman is seen as business-friendly and flexible with a developed and advanced legal infrastructure. With proximity to the US, Canada, Latin America and Europe, Cayman is truly a sophisticated jurisdiction for high-net-worth individuals.

ZEDRA’s Cayman office is staffed by a core team of highly experienced professionals. ZEDRA Cayman provides bespoke services to institutional investors, international companies, entrepreneurs, business professionals and high-net-worth families.
