

ZEDRA Luxembourg

Located in the ‘heart of Europe’ and offering a ‘gateway to Europe’ in many ways, Luxembourg is – despite perhaps being a geographical dwarf between leading European countries and economies – an important global financial centre and hub for countless cross-border businesses and economic players. Spanning from European institutions over international banks, advisors and fund managers to institutional, corporate or private businesses, our Luxembourg office provides the bespoke solutions, expertise and professionalism that all types of economic players require in order to grow and sustain their businesses. Paired with modern infrastructure, security and a favourable legal and tax environment, Luxembourg boasts a high quality of life as well.

Our Luxembourg office has a 25 year history and proven track record and was one of the first to receive the CSSF approval as professional of the financial sector. Our team is proud of this achievement and lives this legacy daily. Our multi-lingual professionals in Luxembourg are experienced and dedicated and have the right mind-set, knowledge, skills and understanding. Most importantly, they focus on the client and his or her business and act as partners. Our clients feel the difference we offer as a global service provider with a personal touch. We do more so that our client can achieve more.

Our Services

ZEDRA Luxembourg’s team specialises in the administration of Luxembourg companies during their whole life-cycle from establishment to liquidation and strike-off.

Our team specialises in holding & financing structures as well as in private wealth management companies and securitisation vehicles.

Our services include:

- / Company formation and registration
- / Bank account opening assistance
- / Provision of personal local directors
- / Provision of registered office and correspondence address
- / Company secretary and statutory records administration
- / Accounting and tax compliance services
- / De-registrations and liquidations
