FUNDS

For global family offices, institutional and private investors

We work with fund promoters to design and implement the right service offering for a multitude of fund schemes.

Our Fund Solutions team provides fund administration and corporate secretarial services to a variety of investment structures domiciled in a range of offshore locations, from the Channel Islands to the Cayman Islands and Singapore.

At the heart of our service ethos is the belief that clients are looking for something more than a simple administration service.

Whatever the jurisdiction, we look to provide solutions to both start up and existing investment managers, as well as complex structuring to family offices and closely grouped private investors by working throughout the fund design process and on to implementation and governance.
